⭐ After switching to the full-screen mode of desktop version, the message counters obscure the body of the message.

Ⓝ Priority	Ⓑ Type	Ⓜ Bug Severity	Ⓤ Bug Type	❓ State	❓ Assignee
Normal	Bug	Minor	UI	Opened	---

Environment:

MacBook Pro, macOs Catalina (10.15.7)

Telegram 8.7.1.

Steps to reproduce:

1. Open the Telegram desktop app;
2. Switch the Telegram desktop app into full-screen mode.

Results:

In the field "All Chats" the message counter hides the body of the message.

The timer collides with the name of a chat.

Expected results:

The elements are placed correctly and do not hide the other elements.
